1. The Lova-Werdau works built 12 "G5" type trucks in December 1953 and delivered them to the Volkspolizei. Two M3A dump cars were delivered to the Wismut AG. Three street railway cars have been manufactured and delivered to Zwickau, where they have already been placed in service.

Orders of trucks for the Wismut AG have been much reduced for the year 1954. It is reported that Wismut AG will get technical equipment from the Gottwald works. Financial and material conditions at Lova-Werdau remain very bad.
